

# AGT S.p.A. Environmental Policy

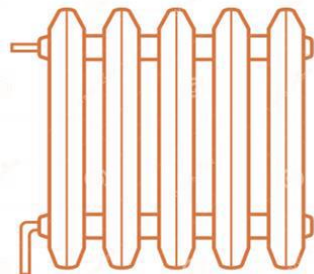

# Lighting

- It is recommended use of daylight when available
- It shall be preferred to use tablel amps within limits of minimum light parameters
- Exiting office/meeting rooms always lights shall be turned off

# Heating

- In wintertime temperature should be kept no higher than 23 celsius.
- After using meeting rooms heating should be turned off.
- Each degree of temperature means 7% more consumption of energy

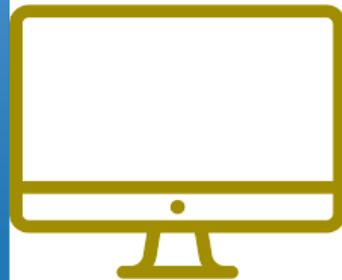

## Air conditioning

- In summertime temperature should be kept between 23 and 25 °C (no more than 8°C below outside temperature) and shall be turned on only if necessary.
- AC shall be turned off when windows are opened.
- More usage of energy means more pollution in the atmosphere.

## Working Instruments PC

- Screens and computer should enter stand-by after short time of non usage.
- Remember to close your PC: screen over 15 minutes inactivity, pc at lunchtime, and at the end of the day full system.

## Working Instruments PRINTERS

- PRINT ONLY THE ESSENTIAL
- PRINT AS MUCH AS POSSIBLE BOTH SIDES
- USE AS MUCH AS POSSIBLE USED PAPER AS DRAFTS
- AT THE END OF THE DAY TURN OFF THE PRINTER.

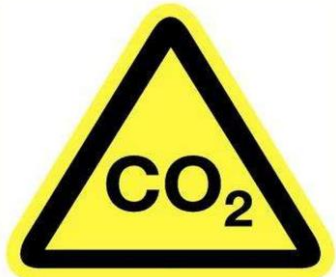

Water

- PREFER TAP DRINKING WATER TO BOTTLED WATER.
- AVOID PLASTIC CONTAINERS AND USE ALUMINIUM CONTAINERS
- DO NOT LEAVE TAP WATER RUNNING

## Trips and Commuting

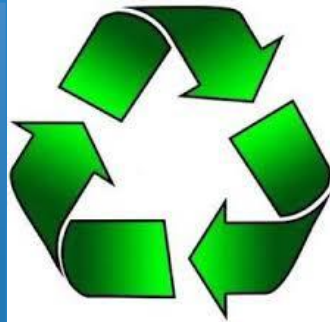

- USE AS MUCH AS POSSIBLE eco-friendly (bikes, e-bikes, e-scooter, ...)
- Cars shall be driven with an eco-friendly attitude in order to reduce CO<sub>2</sub> emissions

Eco  
sustainable  
practices: trash

- Have plants in the office to increase oxygen.
- Containers shall be always reduced in size
- Become plastic free with reusable accessories.

## Recommendations

- Eco-Sustainable Attitude shall be promoted in order not to be a drop in the sea but a sea of eco-sustainable behaviors.
- Earth is only One.
